

# ENVIRONMENTAL POLICY STATEMENT

FBS Intelligent Engineering (iE) Ltd are a specialist provider of services involving the provision of the design, installation, service and maintenance of building mechanical and electrical services. We serve a range of clients in the central and civil government, hospitality and education sectors, and specialise in new build, major refurbishment and maintenance contracts.

In regards the environmental, we are committed to:

- ✓ environment protection and to the prevention of pollution:
- ✓ minimising the environmental impact for the life cycle of our installations,
- ✓ At least comply with our compliance obligations including to legal requirements and the requirements of interested parties,
- ✓ Continually improve our environmental performance and environmental management systems.

Our significant environmental negative impacts the use of mechanical, electronic and electrical equipment, building materials and production of construction & demolition wastes, and transport. We can provide the client with environmental benefits through improved energy efficiency and carbon reduction.

We have an established an environmental management system, to deliver the above commitments, with the objective to:

1. Identify and understand our environmental risks and opportunities and environmental aspects and impacts.
2. Identify and understand our compliance obligations, including legal requirements and the needs and expectations of interested parties.
3. Identify potential emergency situations, and ensure that the risk is minimized, and that we are prepared to respond to them.
4. Ensuring all workers understand their environmental responsibilities and are competent in their tasks.
5. Using and maintaining work equipment and premises to meet our environmental objectives.
6. In purchasing consider a life-cycle approach in materials and product selection and construction techniques and select the best technological, environmental and economical practical option.
7. In planning ensure we achieve all our commitments and ensure the efficient use of resources through good design, specification, procurement, material handling, use of competent operatives and through effective waste reduction, reuse, recycling and recovery of wastes.
8. Reviewing the performance and effectiveness of the Environment Management System.
9. Delivery of continual improvement through improvement plans and control of non-conformity.

We have established environmental objectives to achieve the commitments which are regularly monitored by the management team.

We communicate our environmental policy to all interested parties. This policy is displayed on company premises, presented at new employee induction, displayed in any fixed construction sites under our control, and made available upon request from interested parties.

We review the effectiveness and adequacy of this environmental policy on an annual basis and as part of change planning, lessons learnt, knowledge transfer or following an environmental incident or other failure to meet our environmental objectives.

As the individual with ultimate responsibility for environment at FBS Intelligent Engineering (iE) Ltd I approve this Environmental Policy,

Gerry Farrelly  
Managing Director
